**Subject:** [External] Dominion fees for solar customers

Dear Sir or Madam.

Dominion energy has proposed to penalize with fees solar customers in an unfair and outrageous way. I am not a solar customer and I am a Dominion customer. However, though I would like to have added solar panels I'm not able to do the cost and my age.

It's outrageous for big business to try to run the small companies out of business for financial gain. We all know that solar power is a viable energy initiative. But it is in competition with the large energy corporations who seek only increased revenue. They would not do this if they didn't think it was a threat to them.

Please do not allow this to happen. Solar power is not affordable for me but I wish it was.

Sincerely,  
Mary Clark  
Columbia, SC
